The 2015 Schneider-Electric Sustainability and Business Strategy Chair Award to the *Organization & Environment* most outstanding article in term of relevance to management practice

The Schneider-Electric Sustainability and Business Strategy Chair Award at IESE Business School recognizes the most outstanding article of the year in term of relevance to management practice published in the academic journal “*Organization & Environment*” (*O&E*) in 2014. This award is intended to encourage papers relevant to the praxis of environmental management by clearly addressing research questions pertinent to the translation of theory to executives and managers. In addition this criterion, the paper should exhibit soundness of the conceptual development, originality and new contribution(s), and appropriate methodology well applied.

The winner receives an award plaque and a 250 Euros cash award from the Chair. In addition, the winning author/s will be invited to be part of the selecting committee for the subsequent edition of the award. The prize will be announced at the *O&E* editorial board meeting in the 2015 Academy of Management Meeting. Authors of eligible papers should identify their papers for consideration of this award by sending an email to chair.schneider-electric@iese.edu by no later than May 15th. A committee headed by Prof. Pascual Berrone (Holder of the Chair) and comprised of a Schneider-Electric representative, and the Editors in Chief of the *O&E* (Prof. Alberto Aragon-Correa and Mark Starik) selects the winner.
